Research Experience

Speech Lab, Columbia University   January 2022 – Present
Research Assistant (Adviser: Professor Julia Hirschberg)   *New York, NY*
Investigate pragmatic factors in code-switching by developing dialog act annotation scheme for code-switched speech. Discovered positive association between empathy and code-switching by detecting empathetic utterances in code-switched Mandarin-English speech, using RoBERTa fine-tuned for empathy detection. Fine-tuned Wav2Vec2 for end-to-end dialog act classification on Switchboard Dialog Act Corpus, using PyTorch and Hugging Face Transformers. Processed video, audio, and text with Python, Praat, and FFmpeg, for multilingual empathetic speech corpus. First author on conference paper in preparation. Co-author on 2 workshop paper submissions.

Affective Computing Lab, University of Southern California   May 2023 – August 2023
REU Intern (Adviser: Professor Jonathan Gratch)   *Los Angeles, CA*

Developed negotiating agent for online studies of human negotiation behaviors. Engineered large language model prompts for agent NLU/NLG with OpenAI API. Built user interface using HTML, CSS, JavaScript, Flask. Assembled Qualtrics survey for crowdworkers to evaluate agent. Lead author of paper published in proceedings of *MobiHoc '23*.

Vision, Language, and Learning Lab, Rice University   May 2022 – July 2022
Visiting Student Researcher (Adviser: Professor Vicente Ordóñez-Román)   *Houston, TX*

Quantified visual and linguistic complexity in MSCOCO image captioning dataset by creating and applying novel visual complexity metric. Fine-tuned BERT to predict visual complexity from image captions and probed and mitigated its content-related biases. Presented poster at Columbia University's 2022 Undergraduate Research Symposium.

Natural Language Text Processing Lab, Columbia University   October 2021 – December 2021
Data Annotator (Superviser: Fei-Tzin Lee)   *New York, NY*
